## ALL CONDEMN ELECTION BILL.

UNANIMOUS ACTION OF NON-PARTIZAN BOARD HERE.

Col. Dady Carries Protest to Gov. Higgins -The Bill Described as Simply Inpreasing Patronage and Expenses and Promoting Confusion, With No Benefits.

The Elsberg election bill, which got through the Legislature in the closing day's scremble of the session with its house to house visitation class lopped off, is now before Gov. Higgins for his consideration. Even as the bill passed there is strong objection to it. The non-partizan Board of Elections of this city has unanimously approved a strongly worded protest asking

the Governor to kill the bill. The protest says that the proposed change in the election districts will involve an increased cost to the city of New York of nearly \$250,000 yearly without any benefit whatever. Elections Commissioner Michael J. Dady, president of the Kings county Republican executive committee, went to - Albany last Thursday with a copy of the protest, which he laid before the Governor, at the same time saying that the board hoped that the Governor would not permit

the bill to become a law. John R. Voorhis, president of the Board

of Elections, said yesterday: "So far as I have been able to learn the history of this most unfortunate legislation, it goes back to ex-Gov. Odell. I am informed that shortly before the ex-Governor went to Europe he directed that some measure curtailing the number of voters in the election district be drawn and put through. Under the present law the maximum number of voters to an election district is 650. It was the idea with ex-Gov. Odell and the organization men, as I understand it, that the organization district bosses should keep in closer touch with the voters—should be able to know them and to handle them better. Then, of course, the increase in the number of election districts would n ean an increase in the number of election officers-so much more patronage, in other words.

"That, so far as I have been able to learn it, is the history of this measure. It was drawn, I understand, in the county committee and was handed to Senator Elsberg to introduce. As originally drawn the bill provided for a maximum of only 400 voters

to the election district, but there was so much opposition to this that the maximum was increased to 500.

"Now I am sure that ex-Gov. Odell, had he seen the bill and understood how defective it is, would never have ordered it passed. As soon as we of the Board of Elections saw the securing and grasped just what it meant. the measure and grasped just what it meant, we got in touch with Senator Elsberg and pointed out to him the objectionable features of his bill. He seemed to be much impressed

pointed out to him the objectionable features of his bill. He seemed to be much impressed and when he went away we were inclined to believe that he would withdraw the bill. But he did not, and in the last week of the session it was rushed through. Our hope now is in the Governor.

"That bill, if it becomes a law, will make 400 additional election districts in this city. This, of course, involves obtaining and leasing that number of polling places and their equipment with booths, ballot boxes and other election paraphe nalia. It will also require the employment of 3,200 additional election officers and the consequent release of that large number of qualified citizens from service as jurors. The city will have to pay for 1,600 additional books of enrolment, and employ a large number of inexperienced and irresponsible persons in the selection, transfer and entry of the names of many thousands of qualified electors in such additional books within the next ensuing period of less than forty days. In short, it is certain that the extra expense this bill will involve will be over \$200,000 and probaby very close to a quarter of a million of dollars. That is the expense only which will be thown upon the Board of Elections, an ex-That is the expense only which will be thrown upon the Board of Elections, an expense for which no provision has been made in the appropriation to the board for the

"Then other and additional expenses will be thrown upon the Secretary of State's office by the measure. Several thousand additional books of registry, challenge oath books and copies of the Election law for use in the additional election districts are the control of the several through ror use in the additional election districts created by the bill—all these will have to be provided

And all this for what? For absolutely nothing for which there is the remotest need or for which there has ever been any public or for which there has ever been any public demand. The present election district, with its maximum limit of 650 voters, is small enough. There never has been an instance when all the voters in a district did not have time to vote. In order to get the requisite numbers in a district in many instances the district boundary lines will have to be run diagonally through blocks. They will have to divide stores, so that one part of a store will be in one election district and another in another. A voter won't know where to vote and there will be endless confusion, and, in the matter of compensating good for all this evil, there will be absolutely none this evil, there will be absolutely none Altogether it is about as useless and

pass the Slocum statue and reviewing stupid a bill as has been passed by the Legislature in a long time." Commissioner Kennedy said yesterday that he would send a letter in response to

PRESIDENT LITTLETON HOT. PROTECTS THE DIGNITY OF HIS OFFICE IN A CURT LETTER.

The Recipient, Park Commissioner Kennedy, Seeks to Turn Away Wrath, and Says He Will Send a Reply—An Honor-That Was Intended for Mr. Littleton.

Because the reception committee appointed by President Frederick E. Gunnison of the Union League Club of Brooklyn to receive and entertain President Roosevelt at the clubhouse on the morning of Memorial Day, prior to his unveiling the statue of Major-Gen. Henry W. Slocum, failed to invite Borough President Martin W. Littleton to a place on the reception committee, Mr. Littleton wrote this letter yesterday to

Park Commissioner Michael J. Kennedy: MY DEAR SIR: I have your invitation to seats in section A of the reviewing stand on the occasion of the unveiling of the statue of Major-Gen. Henry W. Slocum.

Personally, I do not care a rap where the

seats are, or, indeed, whether I am invited at all, but I must protest against any program which puts the President of the Borough in any place less than the custom and tradition of his office entitle him to occupy.
I am informed that a committee of ten was selected, which, together with the Mayor and yourself, is to act as a reception committee yourself, is to act as a reception committee to President Rooseveit. Surely the office which represents all that is left of the executive history and power of the old City of Brooklyn is entitled to a place on this reception committee. And, since it has been denied this, I am constrained to respectfully decline any invitation. Yours sincerely,

MARTIN W. LITTLETON,

President Borough of Brooklyn.

In the other four cases, however, Justice Greenbaum, in denying the injunctions against the police, says that the facts disclosed by the affidavite indicate plainly that there was good ground for suspecting that the places were being used for unlawful purposes. The unsuccessful four are the Hancock Social Club at 27 Barclay street, raided on March 24 by Acting Captain Eggers; the Emanon Club, 337 West Fiftieth street, which Capt. Flood is watching; and premises maintained by Emanuel Berwin, and Louis Bowsky.

THE CHOICE OF THE BEST CLASS EVERYWHERE From the Musical Courier of November, 1904.

"The Hardman Piano to-day is recognized as one of those instruments that are typical of the system of American musical and artistic piano-building. The stride that has been made during the last half dozen years is really remarkseen made during the last hay able years is really remarkable. The 'Small Grands' are beautiful in quality and sympathetic and respensive in touch, and the Upright 'Hardman' has always been known as an instrument of unique characteristics with a nature of its own—that makes it a distinct musical creation."

WE ACCEPT OLD PIANOS AND ORGANS as part payment for new or slightly used planos, allowing full value for them. In many cases arrangements can be made whereby the exchanged instrument shall represent the first payment, the balance of the purchase price to be paid in a certain small sum each month. Should the purchaser find it inconvenient to select a new plano at once, and still wish to dispose of the old one, we will give a due bill for the amount of the old instrument to apply upon a future purchase.

Wherever you libe, we deliver the piano free of charge. We take your old instrument at a liberal sum.

Whatever your circumstances, our system of easy payments makes it possible for you to own a "Hardman"

SANG FOR HIS FREEDOM.

James Reilly, Aged 14, Drew the Commendation of the Court. James Reilly of Richmond, Va., aged 14,

was arraigned before Recorder Lazarus in Bayonne, N. J., vesterday, charged with having been intoxicated. He said he had left home to travel in a circus and had sung in the sideshow. He visited several saloons in Bayonne to sing, and in one place somebody poured whiskey in his saysanarilla for a joke. He was very anxious to gain his freedom, saying he had a job to go to at the borax works, and he offered to give the court an exhibition of his singing ability, to prove that he was truthful.

"All right. You may sing us a song, and if it is well sung you will be discharged," said the Recorder. The boy cleared his throat and looking straight at the Court, sang: "Just Say There Is No Answer." When he had finished the Court said: "You have an excellent voice and have carried. have an excellent voice and have earned your freedom. Keep away from the saloons, avoid strong drink, go to work, and you will get along all right."

They're not a bit afraid of the water.

Indeed, if the color of one of our boys' wash suits should run, you can't run it back here too quick.
